SMS Casing Ceiling Landscape/Portrait

A flexible system for indoor digital signage. Choose display orientation and colour, to match the environment.

Get your message through

Meet and inspire your visitors with attractive content inside the shopping mall, in the hotel lobby or at the airport. An excellent choice for retailers or anyone who want to meet the public with engaging messages.

Portrait or Landscape? Yes, both!

The product can be used both in portrait and landscape mode, depending on the needs of your installation.

Clean look

The sleek design of the Casing Ceiling Landscape/Portrait with efficient cable management, via cable guidance through the ceiling pipes (ordered separately) makes the installation look neat. The casing covers the bezel, sides and backside of the display.

NB! Use P1 and P2 in our [Func CH VST2](#) for ceiling installations.
